Health Department Annual Report now available

(Lawrence, KS) – The Lawrence-Douglas County Health Department’s 2007 Annual Report is now available online at www.ldchealth.org.

The report was presented earlier this week to the Lawrence-Douglas County Health Board and approved during its regular monthly meeting.

In addition to 2007 financial information and program highlights, this year’s Annual Report features the Taylors, a Lawrence family who has utilized the Health Department’s services during the past three decades. From immunizations to pool inspections – directly or indirectly – the Taylors are just one example of Lawrence and Douglas County residents who have benefited from Health Department services.

“Since our first City of Lawrence Health Officer began in 1885, the Lawrence-Douglas County Health Department has been building relationships with clients, local agencies and policymakers so that we can continue to meet the public health needs of the community,” said Dan Partridge, Lawrence-Douglas County Health Department Director.
