Number of People in Douglas County Tested During Outbreak: **1,706** ([KDHE testing map](#))

Current LMH Health Inpatients Positive for COVID-19: **1**

As more COVID-19 testing supplies have become available in Kansas, we expect the potential for more positive cases in coming days. We had no new cases on Wednesday, but the five new cases Tuesday were the most in a single day since April 6, and it serves as a reminder for everyone to stay home as much as possible and keep your circle of contacts small.

“We have to be very serious about [practicing social-distancing guidelines](#). Those guidelines are very important,” said Dr. Thomas Marcellino, [Douglas County’s Local Health Officer](#). “The virus will be with us in the coming months and into the foreseeable future until we can get some type of vaccine that works.”
