Number of People in Douglas County Tested During Outbreak: **4,596*** ([KDHE testing map](#))

*Note: This number will be updated MWF to reflect KDHE methodology for reporting numbers

Current LMH Health Inpatients Positive for COVID-19: **0**

- Periodically during the disease investigation process, cases initially assigned to us are later reassigned to another county once it's determined the patient's primary residence is there instead of Douglas County. We believe this accounts for our difference in case total today with what is listed on the KDHE COVID-19 map.
- Review the [Smart & Safe Reopening Douglas County Community Scorecard](#) for metrics updated every Friday that guide reopening phase decisions. Last week, we met the goal on all metrics except for being near the goal with [one outbreak](#), and we ask people to continue to be smart and safe, including wearing masks, practice social distancing and keep your circle of contacts small.
