More Information at [LDCHealth.org](#) and [douglascountyks.org/coronavirus](#)

- With three new deaths of Douglas County residents determined to be COVID-19 related, we offer our condolences to the families and friends, and this serves as a reminder for everyone of the importance of masking up and practicing social distancing to keep the disease from spreading to those most vulnerable in our community.
- The new cases that we report each weekday are the ones we report to you as we know about them — when the COVID test result is completed and we are informed by the KDHE that the person is positive. The 14-day moving average graph shows when the COVID test was performed on each positive case, which is a standard measurement.
