More Information at [LDCHealth.org](#) and [douglascountyks.org/coronavirus](#)

- We have updated our Smart and Safe Reopening [Douglas County Scorecard](#) with this week's data, and a [broader Unified Command structure](#) will give added flexibility to the community's COVID-19 response and recovery.
- Watch [this video](#) about the data in this report. The new cases that we report each weekday appear as we know about them — when the COVID test result is completed and we are informed by the KDHE that the person is positive. The 14-day moving average graph shows when the COVID test was performed on each positive case, which is a standard measurement. The data are graphed at the earliest dates when a person was tested for COVID-19 and it came back positive.
