- The moving average graph does not include the most recent three days to allow lab results for those dates to be completed and ensure a more accurate calculation of the moving average for these data points.
- Douglas County Health Officer Dr. Thomas Marcellino said as more communities around the state and region are exhibiting concerning trends, it's a reminder for Douglas County residents to continue being vigilant about mask wearing and social distancing. "The communities that take the virus seriously, primarily by mask wearing are going to be better off," Marcellino said.
