Statement on updated CDC guidelines for fully vaccinated individuals

Dr. Thomas Marcellino, Local Health Officer, Douglas County:

“We are in the process of reviewing [updated CDC](#) and [KDHE guidance](#). Throughout this pandemic, we have tried to remain consistent with state and federal public health officials. We are working diligently with county leaders and will address this during the May 19 Douglas County Commission meeting.

We continue to encourage anyone eligible to get vaccinated.”

The CDC and KDHE on Wednesday also expanded the Pfizer vaccine to anyone 12 and older.

Visit LDCHealth.org/COVIDVaccine or douglascountyks.org/coronavirus to find a code to register for vaccine appointment. The [consent form](#) for parents and guardians is also available at LDCHealth.org/COVIDVaccine.
